

NHSRCL conducts three online pre-bid meetings

Maintaining the pace of the Mumbai-Ahmedabad High Speed Rail project being implemented by NHSRC Limited, during the lockdown period due to Covid-19, online pre-bid meetings were organised through video conferencing for three active tenders. Main objective of these meetings was to clear doubts of potential bidders before they submit their final bidding documents. The online pre-bid meetings received exceptional response and were attended by various construction companies and members from JICC Japan.
