

# Track work on Bullet train corridor begins between Surat, Bilimora

TIMES NEWS NETWORK

**Ahmedabad:** The construction of the bullet train track has begun near Surat, with the section between Surat and Bilimora set to be the first operational segment on the Ahmedabad-Mumbai route.

According to National High Speed Rail Corporation Limited (NHSRCL) officials, the process of laying the tracks is now underway. In line with previous announcements, the Surat-Bilimora section would be the inaugural stretch to commence operations along the route.

The officials from NHSRCL said that over 30km of the RC track beds are ready, and the laying of tracks

has started on this portion. The railway track slabs are ready for approximately 70km. The contract for the entire segment from Ahmed-

abad to Vapi, including track laying, has been awarded. As soon as the track bed is ready, the work for track laying will begin.
