Section-1: Notice Inviting Tender (NIT)

- 10.4. The scope of work includes the arrangement of deployment of machineries, deployment of experts and the trained officials for proper planning, supervision and execution of works, all running maintenance & repair expenses, fuel, lubricants and any other consumables required from time to time, all taxes (except GST), duties, incidental charges, penalties etc. as imposed by Central/State/Local Government bodies, including salary and other benefits admissible to staff.
- 10.5. The successful tenderer shall provide sufficient machines for transplantation of standing trees to work at minimum 2 locations simultaneously. The successful tenderer should be able to deploy additional resources without any extra cost as per NHSRCL's requirement for executing the transplantation works at more than 2 locations simultaneously.
- 10.6. The responsibility of removal of all the hurdles and making temporary roads etc. would be with the contractor, for which additional machineries would be required to be deployed by the contractor in addition to the machines deployed for transplantation of trees. Nothing extra shall be paid towards the same.
- 10.7. For efficient utilization of machineries, pre-planning of the tree transplantation including the deployment of machineries should be done by the successful tenderer in consultation with NHSRCL.
- 10.8. All resources, including human, machinery and material resources, will be the sole responsibility of the agency.
- 10.9. If the transplantation process requires temporary demolition of an existing road surface, the Contractor shall acquire permission from the related authorities before commencement of work. The excavated road surface should be kept levelled during the process, and should be restored to its original state after transplantation. If Contractor fails to restore the roads to its original state in the appropriate time, the same shall be carried out at the risk and cost of the Contractor.
- 10.10. Successful tenderer shall maintain all documents viz. list of trees to be transplanted with location map, along with geo-coordinates (location) of trees to be transplanted and that of their transplantation sites, duly signed by the concerned authorities, pre-and post-transplanting photo/ videographs of the trees, etc. and handover the same to the NHSRCL after completion of the work.

- 10.11. All governance, monitoring and reporting aspect of this assignment at region/wing level will be controlled by the concerned NHSRCL officials.
- 10.12. Before starting of work, all the trees planned to be transplanted should be identified by the successful tenderer. The trees, then, should be numbered and the list should be got approved from NHSRCL representative.
- 10.13. Tree branches should be trimmed before transplanting as per the requirement for the transportation, as per the guidelines for the Tree Transplanting and NHSRCL's instructions.
- 10.14. Wounds should be smooth without splitting. When trimming branches with a diameter of over 5 centimetres, avoid splitting due to improper trimming. The wounds must be smoothed, with preservatives applied.
- 10.15. Roots must be trimmed before transplanting as per the site conditions. Temporary supports shall be installed before trimming. Excavation and trimming shall be performed in stages. The root-cutting diameter should be 10 centimetres less than the planned root ball. The roots should be trimmed one after another, in a circular pattern with the trunk as the core. The wounds of the exposed roots must be smoothed.
- 10.16. When encountering thick roots, cut them with a hand saw instead of digging through, keep the wounds smooth and apply healing agents to prevent infection.
- 10.17. Wrap the soil ball with biodegradable materials, and then with large mesh wire netting to maintain its stability.
- 10.18. After being excavated, the tree trunk should be wrapped with protective materials (e.g. sackcloth, canvas). During transportation of the tree to the new destinations, cushions should be placed between the tree and the body of the vehicle, to avoid damaging the branches. Fasten the tree with ropes for safety's sake, regardless of how far it is being transported.
- 10.19. Be gentle while loading, unloading, and handling, and avoid dragging while transporting. Ensure there are no damage to the soil ball, and no scratching and splitting of the root system and the tree should be kept intact without injuries to its root system, trunk and crown while transporting the trees.
- 10.20. Keep the trees being transported properly moistened, sheltered and protected from wind, strong sunlight, rain, cold weather and theft.

Section-1: Notice Inviting Tender (NIT)

- 10.21. While transporting, loading and unloading, follow traffic safety guidelines, with warning signs erected to alert passing vehicles and pedestrians.
- 10.22. After digging the pits at the new location for the transplantation of trees, apply organic or other types of fertilizers to the base of the hole to facilitate root growth, and replace the existing soil with new soil. The backfilled soil should comprise 40% yellow soil, 20% pond silt, 10% organic fertilizers, 10% peat soil, 20% pumice and 0.1% moisturiser. There should not be any rocks or impurities larger than 1 centimetre in diameter in the soil.
- 10.23. The transplantation process including excavation, transporting and planting should be completed within the same day as far as possible.
- 10.24. When encountering adverse weather, apply temporary measures to protect the soil ball and the planting hole, install sheltering facilities and, if necessary, water the tree to prevent injury or withering.
- 10.25. While planting, remove the wrapping materials around the soil ball, gently put the tree into the hole, and keep the trunk upright. Refill the soil surrounding the root ball, water the tree, compact the soil with wooden stick to enhance contact with the root system, & build a "soil wall" around the tree to retain water.
- 10.26. Install supporting structures immediately after planting, to prevent tree leaning. Fasten the tree with ropes as per the necessity.
- 10.27. Water the tree immediately after transplanting, and water again after 2~3 days, and then provide water timely. Keep it well watered to ensure sufficient water at the base of the soil ball. Meanwhile, wrap the main trunk and the first and second main branches with straw ropes or soft moist materials.
- 10.28. In summer, build a shelter to protect the tree, and spray the tree crown and trunk with water to keep them moist. Protect the tree against cold weather in winter by installing a wind screen and applying other winter-proof measures.
- 10.29. Apply foliar fertilizers after transplanting when appropriate.
- 10.30. Constantly keep the soil moist after transplanting. Beware of water logging and drain excess water in time. During the maintenance period, avoid watering at noon when the weather is hot.
- 10.31. Keep the tree free from pests. While refilling the soil, add pesticide if needed, and trim away branches which are withered or infected by diseases.

**22. Deviation/  
Special  
Condition  
quoted by the  
tenderers**

- 22.1.** “Tenderers should submit their offer strictly in accordance with the terms and conditions of the tender document. Tenderer should not quote any deviation from the tender document and should not quote any conditions.
- 22.2.** Nevertheless, as an exception, if any unavoidable deviations or conditions are quoted by the tenderers, financial impact of each of such conditions/deviations on their quoted unit rates, in terms of Rupees per unit rate, shall be clearly mentioned by the tenderer in the tender offer.
- 22.3.** If any of the deviation/condition has no financial impact on the quoted rates, in such cases also, the tenderer must clearly mention its financial impact as ‘NIL’. This is required for proper financial evaluation of such conditional / deviated offers.
- 22.4.** Conditional offers / offers with deviations, without quantified financial impact of each of the condition / deviation on the quoted rates, shall be considered as “incomplete” and shall be summarily rejected.”

Section-3: Conditions of Contract

(a) Operation of an item by more than 125% of the agreement quantity needs the approval of competent authority of NHSRCL officials;

(i) Quantities operated in excess of 125% but up to 140% of the agreement quantity of the concerned item, shall be paid at 98% of the rate awarded for that item in that particular tender;

(ii) Quantities operated in excess of 140% but up to 150% of the agreement quantity of the concerned item shall be paid at 96% of the rate awarded for that item in that particular tender;

(iii) Variation in quantities of individual items beyond 150% will be prohibited and would be permitted only in exceptional unavoidable circumstances with the concurrence of associate finance and shall be paid at 96% of the rate awarded for that item in that particular tender.

(b) The variation in quantities as per the above formula will apply only to the Individual items of the contract and not on the overall contract value.

(c) Execution of quantities beyond 150% of the overall agreemental value should not be permitted and, if found necessary, should be only through fresh tenders or by negotiating with existing contractor, with prior personal concurrence of NHSRCL official.

**6.3.** In cases where decrease is involved during execution of contract:

(a) The contract signing authority can decrease the items up to 25% of individual item without finance concurrence.

(b) For decrease beyond 25% for individual items or 25% of contract agreement value, the approval of an appropriate rank of NHSRCL official as per SOP may be taken, after obtaining 'No Claim Certificate' from the contractor and with finance concurrence, giving detailed reasons for each such decrease in the quantities.

(c) It should be certified that the work proposed to be reduced will not be required in the same work.

6.4. No such quantity variation limit shall apply for foundation items.

6.5. In case of NS items, the limit of 25% would apply on the individual items irrespective of the manner of quoting the rate (single percentage rate or individual item rate).

**7. Completion Certification**

The Completion certificate by the Competent Authority of NHSRCL will be issued after the completion of works as stated in the scope of work and clearance of the site to the satisfaction of the NHSRCL representatives.

**8. Limitation of liability**

Except in cases of criminal negligence of willful non-performance or willful default, the Contractor shall not be liable to the Employer, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs and the aggregate liability of the Contractor to the Employer, whether under the Contract, in tort or otherwise, shall not exceed the 100% (Hundred Percent) of the contract price plus escalation if applicable as per contract, provided that this limitation shall not apply to any obligation of the Contractor to indemnify the Employer with respect to copyright, patent infringement

and statutory liabilities in general that the Employer may be required to additionally bear due to default of the Contractor.

#### 9. Indemnity

The Contractor shall at all times indemnify the NHSRCL against all claims which may be made in respect of the said work for infringement of any right protected by patent registration design or trade mark; provided always that in the event of any claim in respect of an alleged breach of a patent registered design or trade mark, being made against the NHSRCL he shall notify the Contractor of the same and the Contractor shall be at liberty, but at his own expense, to conduct negotiations for settlement or any litigation that may arise there from.

#### 10. Force Majeure

In the event of any unforeseen event directly interfering with the work arising during the currency of the contract, such as insurrection, restraint imposed by the Govt. act of legislative or other authority; war, hostilities, civil commotion, fires, floods, explosion epidemics, quarantine restrictions, or acts of God, the Contractor shall, within a week from the commencement thereof, notify the same in writing to the NHSRCL with reasonable evidence thereof. If the force majeure condition(s) mentioned above be in force for a period of 90 days or more at any times, the NHSRCL shall have the option to terminate the contract on expiry of 90 days of commencement of such force majeure by giving 14 days' notice to the Contractor in writing. In case of such termination, no damages shall be claimed by either party against the other, save and except those which had occurred under any other clause of this contract prior to such termination.

#### 11. Termination

NHSRCL may terminate, by not less than 7 (seven) days' written notice of termination to the Contractor, to be given after the occurrence of any of the events as specified below:
